PERSONAL PROJECTS

Pixel UI Library (08/2024 - 08/2024) ↗

- Developed a UI library website featuring a collection of reusable components to accelerate web page development.
- Implemented a searchable and filterable gallery for easy component discovery.
- Integrated light and dark mode toggles for enhanced accessibility.
- Utilized HTML and CSS for foundational structure and styling.

Quick Slot (09/2024 - 09/2024) ↗

- Developed a user-friendly web application enabling users to set availability, share booking links, and manage appointments, enhancing scheduling efficiency.
- Implemented user authentication features, allowing users to sign up, log in, and log out securely.
- Designed functionalities for appointment management, including viewing, editing, and canceling appointments while preventing double bookings.
- Integrated calendar services (e.g., Google Calendar, Outlook) for automatic updates of availability and appointments, along with support for timezone handling and buffer times.

ER-SQL (10/2024 - 10/2024) ↗

- **Collaborative ER Diagram Builder** : Developed a React.js-based web app for creating, managing, and exporting ER diagrams with real-time team collaboration using Firebase.
- **Advanced Features** : Integrated Redux Toolkit for state management, React Flow Renderer for dynamic diagram interactions, and Framer Motion for smooth animations.
- **Export & Responsive Design** : Enabled diagram export to PNG, PDF, and SVG formats using html2canvas and jspdf , ensuring a mobile-friendly interface with Chakra UI and Bootstrap.
- **Scalable Deployment** : Designed a robust project architecture with Vite for fast builds and Firebase backend for secure authentication and data management.

ACHIEVEMENTS

Project Topper in 3rd year (Hotel Booking Website) (03/2024 - 05/2024)
As the top project in my third year of college, I developed a comprehensive Hotel Booking Website featuring both user and admin panels, which facilitated efficient user management and streamlined administrative operations. The platform included a secure payment gateway integration via PhonePe, enhancing transaction efficiency and user trust. This project was awarded the top position for its advanced implementation, functionality, and innovative design.
